HabeebaBellyDance@gmail.com

We teach an exclusive technique developed by one of the master instructors in the United States – Habeeba, who founded the first studios in the Midwest for Middle Eastern Dance in 1972. Her sophisticated and authentic style stresses strong technique, intricate hip movement, and undulating smoothness. Today Belly Dancing, also known as Oriental Dancing, is a popular dance form around the world for performances, expression, and keeping fit and healthy.

Habeeba's has taught Belly Dance to thousands of women, and is recognized internationally as a leader in the development of the art form. Classes are personalized and taught in an informal and friendly atmosphere. Some of Habeeba's students become professional dancers, while others study the dance for exercise and fun. Habeeba's studio also has belly dance supplies for sale: hip sashes, costumes, finger cymbals and music.
